TESC Self-Assessment Questions 2005

Below are the results of the evaluation for this year. In the main table below the "correct" or "best" answer is shown in bold: the number and percentage of all neurologists (and consultants and trainees separately) giving each answer are shown in succeeding columns.

I am most grateful to all the question setters, to Dr Wojtek Rakowicz who led the question setting group, to Dr Camille Carroll for collating and summarising the answers, and to Karen Reeves at the ABN for much assistance.

Note that the ABN will retain a list of GMC numbers of people who submitted answers for audit / CPD purposes.
